

VOL. XLIII.

PIOCHE, NEVADA, THURSDAY, MAY 10, 1894.

NO. 34.

TELEGRAPHIC NOTES.

SAN FRANCISCO, May 7.—The business manager of the Chronicle, James B. Eliot, narrowly escaped death from a pistol shot fired by James Rudolph, a well known local politician, in the Chronicle business office shortly after noon today. Rudolph entered the office and was making a noisy demonstration in abuse of Mr. M. H. De Young, when Mr. Eliot interfered. Rudolph drew a pistol and an exciting struggle ensued, Rudolph discharged the weapon at Eliot and the ball ranged downward striking a silver dollar in Eliot's pocket, saving him from fatal injury. Rudolph was arrested and charged with assault to murder.

WICHITA, Kan., May 7.—The State National Bank suspended suddenly today. L. D. Skinner had been president of the bank for twenty-one years and this institution was considered one of the strongest in this section. The bank officials have not yet made any statement. Swift & Company made a deposit of \$950 the last thing Saturday night.

INDIANAPOLIS, May 7.—General Fry and his army of 200 fled out of camp to day on their march to Washington. He will reach Washington, he thinks, with \$2,000 in the treasury from the sale of his book.

SAN FRANCISCO, Cal., May 6.—R. H. McDonald, Jr., who is accused of having wrecked the Pacific Bank and the People's Home Savings bank of this city, of both of which institutions he was vice-president, is in jail, charged with the felonious embezzlement of \$20,000 of the funds of the Pacific Bank. He was unable to secure the \$100,000 bail demanded.

CHICAGO, May 6.—Chicago bankers, merchant princes and manufacturers, whose names are widely known, have come out for international bimetalism. They have signed a creed with bimetalism as its basis.

MENCKE, Ind., May 6.—The reaper and mower works of William N. Whiteley, were destroyed by fire this morning. The loss on the buildings is not great, but the destruction of 2000 machines ready for shipment and 1500 almost completed, the patterns of which were an accumulation which has cost thousands of dollars, and the new machinery that filled the factory, brings the loss up to \$245,000, without a cent insurance.

CLEVELAND, O., May 6.—A lively fight occurred this afternoon at the Standard foundry, where a strike has been in progress for several weeks. About 2000 idle men in the vicinity assembled and an assault was made upon the building. The guards who were inside armed with rifles, opened fire on the crowd, and the battle raged fully fifteen minutes before the police arrived.

CARSON CITY, Nev., May 5.—Tahoe City on the shore of Lake Tahoe, Placer county California, burned down today. The town consisted of about fifty houses, two hotels, stores, etc. The whole town is said to be destroyed.

WASHINGTON, May 5.—The constitutional case of the United States against J. S. Coxey, Carl Brown and Christopher Columbus Jones, for invading the Capitol grounds with a banner and trading on the grass, was continued in the Police Court today, and bids fair to continue indefinitely at its present rate of progress. Representative Pence created a sensation by declaring it was evident the court was endeavoring to help the prosecuting officers out of a hole, from which they had shown an absolute incapacity to lift themselves.

The Coxey movement in the north-west is putting the Government to a heavy expense. The Treasury department has submitted to the House an estimate of a prospective deficiency of \$50,000 for United States Marshals. Attorney General Olney says the expense in the State of Washington on this account is \$1000 a day.

DEBEQUE, Colo., May 5.—It is reported that 800 Colorado sheep in Battlement, Mesa reserve, were slaughtered last night by Utah shepherds out of revenge for being kept out of the State. State Veterinarian Gresswell will turn back 3000 Utah sheep near here. Ten thousand near Grand Junction will also be sent back. The settlers are armed to resist invasion of the State by Utah shepherds.

WASHINGTON, D. C., May 4.—An amendment to the naval appropriation bill authorizing the construction of twelve new torpedo boats, was favorably reported by Senator McPherson, chairman of the Committee on Naval Affairs. The amendment provides that the cost of the boats shall not exceed \$200,000, and they shall be capable of making a speed of twenty-five knots per hour. A premium of \$8000 is to be added for speed in excess of twenty-five knots, and a penalty of that amount in case the speed of the boats falls below twenty-five. Eight of the boats are to be constructed east of the Rocky mountains and four on the Pacific Coast.

DES MOINES, Ia., May 4.—Kelly's army is in desperate straits. Starvation stares the men in the face, and the demonstration of the laboring people, as a last resort, was not a success. Governor Jackson is endeavoring to secure cheap rates to the river but is not confident of success. To carry the men to the Mississippi at full rate would cost \$6500 and the railroads will accept nothing less. It is the general impression that Kelly will be starved out and the army will dwindle to a corporal's guard before the river is reached.

TACOMA, Wash., May 3.—Three hundred of the 1000 Indians encamped at Puyallup, marched up the track eastward this afternoon, congregating near Ostling. Early this evening they seized a fast east-bound Northern Pacific freight train, and are now climbing the grade into the Cascade mountains. Marshal Drake has just been notified. He will leave at once with a force of deputies in pursuit. Probably the militia will follow.

Monuments for the Boundary.

There have recently been received at the Mexican border two carloads of government freight consisting of the new line monuments and other necessities for the work of definitely marking the boundary line between the United States and Mexico. On the old monuments from plates are to be affixed by means of bolts, on which is inscribed in raised letters: "Repaired by the boundary commission, created by the treaties of 1882-1889. The destruction or displacement of this monument is a misdemeanor or punishable by the United States or Mexico."

The new monuments are of iron, 6 feet high from base to top of square, and 6 feet 6 inches high from base to apex. The shafts are tapering, being about 12 inches square at the base and 10 inches at the top of square, the crown tapering to a point. On one side of the shaft in raised letters is the following: "Boundary of the United States (under which an American eagle appears), treaty of 1883, re-established by treaties 1882-89. The destruction or displacement of this monument is a misdemeanor or punishable by the United States or Mexico." These latter monuments will be bolted on the concrete base, 2 feet thick by 3 feet square and placed about two miles and four-tenths apart. —Dallas News

Wholesale Vaccination.

A few weeks ago the Sultan of Turkey had his wives vaccinated. As no female doctor had yet found her way to the Bosphorus there was nothing for it but to admit a medical man to the apartments of the imperial ladies. The devotees of Mohammed need be under no apprehension. The laws of the prophet were not transgressed, nor were the odalisks exposed to the gaze of any other man except their august lord and master. A partition was erected in a room of the palace in which a hole was cut out. Through this hole 167 of the most beautiful arms in the world were thrust forth in succession. There were arms of snowy white and ebony black—in short arms to suit all tastes—but the doctor, an Italian named Maracci, saw nothing beyond these arms.

The operation was effected in the presence of a crowd of eunuchs, including Manour Ali and Dady Mar. The latter is a stalwart Abyssinian, who covered the head of the doctor with a black cloth at every change of the arms. Later advice from Constantinople informs us that 12 of the prettiest young ladies have suddenly died from blood poisoning consequent on the above operation. —Nouvelles Presse.

Heart Failure no Longer Accepted.

The registration and sanitary committee of the board of health has addressed the following notice to the physicians of the city:

"As the board of health is doing all in its power to prevent the spread of contagious diseases, you are requested not to place on any certificate 'heart failure' as the cause of death, but the diseases which the patient was suffering from to the heart failure. This term has never been placed on the list of diseases adopted by this board, it being looked upon as a result of some other illness from which the patient was suffering. Furthermore, it furnishes an opportunity to conceal contagious diseases, and thus permits the ignoring of the rules of this board by the family and undertaker, either innocently or designedly.

"Hereafter a burial permit will not be issued on the certificate of death of 'heart failure' when unaccompanied with the disease from which the heart failure occurred." —Philadelphia Times.

Patchwork For Royalty.

An amusing episode occurred the other day in connection with the royal wedding. The Duke of York went with the Princess May to open a new town hall which has just been erected at Richmond. Just before the royal party drove up a very old woman laden with an enormous parcel pushed her way to the front and refused to pay any attention to the protests of either duke or princess. When threatened with "superior force," however, she admitted that her object was to present her wedding gift to the royal couple. On inquiry this proved to be a gigantic patchwork quilt of worsted stockings for the Duke of York. The old lady had made them and was determined to present them herself. It was, however, represented to her that this was an unsuitable occasion, and she retired with the intention of taking them to White Lodge.—London Letter.

Summer Sundays in England.

One of the problems of our social life, says an English society journal, is "what to do on Sunday during the summer, and this year it is decided that the right thing is to betake ourselves to the river. Paddling station on Sunday morning is almost as fashionable as a ball given by one of the upper ten thousand, and in the delightful sunshine which we had all been enjoying Father Thames, its locks and its banks have been bright with the gay coloring of the drosses which it is no longer considered bad taste to affect."

Talking Donkeys.

The secret of teaching donkeys to talk is said to have been bought from a Tunisian chief by a French impresario for the sum of \$500, and at least in one case it has proved a success. The wonderful animal in question, which has not yet appeared in public, though it will shortly do so, does not indeed carry on connected conversations, but can clearly articulate a large number of phrases in both the French and English languages.

The Influence of Politicians.

When one, not being a professional politician, looks at the question widely and considers the penalties of political greatness, one begins to wonder whether politics have that influence on the real life of a nation which they are supposed to have, and whether eminent politicians are not merely the puppets of the hour. But that is a question on which the fates forbid that we should enter! Probably in no case are the penalties of greatness so irksome as in the case of the eminent politician.—All the Year Round.

A newspaper man, who evidently believes in telling things just as they are, says: "Do not swear. There is no occasion to swear outside of a printing office. It is useful in proof reading, indispensable in getting forms to press, and has been known to assist in looking the paper over after it is printed; but otherwise it is a very disgusting habit."

The new issue of Salt Lake City bonds to the amount of \$800,000, was taken by a Chicago house last Monday at a premium of one per cent. Ten bids in all were submitted, some of them very close up, which shows that though dull times prevail generally, Salt Lake's ability to not only pull through all right, but to come out ahead, is regarded as sure, and by those who are willing to pay for it if it proves otherwise.

A Little Daughter

Of a Church of England minister cured of a distressing rash, by Ayer's Sarsaparilla. Mr. RICHARD BIRKS, the well-known Druggist, 207 McGill St., Montreal, P. Q., says:

I have sold Ayer's Family Medicines for 40 years, and have heard nothing but good of them. I know of many

Wonderful Cures

performed by Ayer's Sarsaparilla, one in particular being that of a little daughter of a Church of England minister. The child was literally covered from head to foot with a red and exceedingly troublesome rash, from which she had suffered for two or three years, in spite of the best medical treatment available. Her father was in great distress about the case, and, at my recommendation, at last began to administer Ayer's Sarsaparilla, two bottles of which effected a complete cure, much to her relief and her father's delight. I am sure, were he here to-day, he would testify in the strongest terms as to the merits of

SUMMONS.

In the District Court of the State of Nevada, Lincoln County.

The State of Nevada does hereby give notice to you that you are hereby required to appear in an action commenced against you as defendant by Mary Ellen Gothe as Plaintiff in the District Court of the State of Nevada, Lincoln County, at the town of Picoche, and answer the complaint therein, which is on file with the Clerk of said Court, within ten days after the service on you of this summons (exclusive of the day of service); if served in said County, or twenty days if served out of said County, but within this District, and in all other cases forty days; or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to recover judgment against you, the said defendant, for a dissolution of the bonds of matrimony now existing between you and said Plaintiff; for and on account of your failure and neglect for more than one year last past to provide for said Plaintiff the common necessities of life, though having the ability so to do, and which neglect on your part is not, and has not been the result of poverty which you could not avoid by ordinary industry.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said Plaintiff will apply to the Court for the relief demanded in said complaint.

In testimony whereof, I have hereunto set my hand this 26th day of March, A. D. 1894.
